E-Mail: ramcharranlackchan@hotmail.com

Summary

A technically sound and experienced professional with over twenty-five (25) years of progressive experience in the ammonia production industry; has a thorough understanding of various ammonia processes and technologies employed across the globe. Functioned in various leadership roles including Commissioning Engineering Manager; Lead Commissioning Manager, Commissioning Specialist, Turnaround Coordinator, Shipping Coordinator and Senior Production Supervisor.

Has extensive background in operations and managed the successful pre-commissioning, commissioning and safe start-up of several world scale ammonia plants as well as a natural gas to liquids plant producing low sulfur biodegradable diesel and naphtha. Successfully managed all aspects of plant operations and lead project teams to focus on safety, quality and operational excellence.

Key Skills and Highlights

Listed below are some of the key skills and experience gained over the past two decades working in the ammonia and natural gas industry.

MANAGEMENT

- Lead Commissioning Manager overseeing the successful start-up of a Natural Gas to Liquids Plant producing low sulfur biodegradable diesel and naphtha in Point of Pierre, Trinidad and Tobago, leading the pre-commissioning, commissioning, start up and operations.
- Commissioning Engineering Manager overseeing the successful start-up of a Greenfield Ammonia Plant in Geneva Nebraska USA, leading the pre-commissioning, commissioning, start up and operations.
- Commissioning Specialist for the successful pre-commissioning, commissioning and start-up of a world scale Ammonia Complex in Wever Iowa, USA.
- Functioned as the Acting Plant Superintendent and coordinated all activities to ensure the safe and efficient operations for two world scale Ammonia Plants in Trinidad West Indies.
- Managed the daily operations of Ammonia Production Facilities in Trinidad West Indies in the capacity of Senior Production Supervisor and Shipping Coordinator.

TURNAROUND PLANNING AND EXECUTION

- Spearheaded turnaround activities in the capacity of Operations Turnaround Coordinator for two world scale Ammonia Plants in Trinidad West Indies.
- Led the successful planning and execution of Plant Turnaround and debottlenecking exercises.
- Coordinated critical Maintenance activities to minimize down time and optimize productivity.

RISK MANAGEMENT AND SAFETY
